51	52	53	54	55	56	57	58	59	60
61	62	63	64	65	66	67	68	69	70
71	72	73	74	75	76	77	78	79	80
81	82	83	84	85	86	87	88	89	90
91	92	93	94	95	96	97	98	99	100
101	102	103	104	105	106	107	108	109	110
111	112	113	114	115	116	117	118	119	120

Use this number table to read up to 120

Step 1 Practice reading up to 10.

Able to read on (Date) / within (Time)

Step 2 Practice reading up to 30.

Able to read on (Date) / within (Time)

Step 3 Practice reading up to 50.

Able to read on (Date) / within (Time)

Step 4 Practice reading up to 100.

Able to read on (Date) / within (Time)

Step 5 Practice reading up to 120.

Able to read on (Date) / within (Time)

Instruction for Parent(s)

1. While reading the number table, please have your child read the numbers in a rhythmical manner while pointing to each one. Recording the time your child takes to read the numbers will allow you to have a better idea of your child's progress.
2. For example, after your child is able to read up to 30, have him/her practice reading up to 40, then to 50, and so on. Through daily practice and increasing the numbers slowly, set a target for your child to be able to read big numbers.
3. For example, if your child takes a long time and finds it challenging to read up to 100, have him/her practice reading the numbers that he/she finds easy again, such as up to 80, in a rhythmical manner. When your child is ready, increase the numbers that he/she has to read to 90, and so on. This will allow him/her to progress smoothly.
4. To motivate your child to continue to have a strong desire to learn, please praise him/her every time after he/she has finished reading the numbers.
